Students from across the United States and around the world come to USC Marshall with big dreams. Two thirds of our students require financial assistance. Scholarships help close financial gaps and reward students’ efforts to achieve academic excellence. With scholarship support, exceptional students are able to choose USC Marshall over other institutions to begin or continue their studies. USC Marshall and Leventhal scholarships make the cost of education more accessible and affordable, allowing students to thrive and succeed.

**Impact and Need for Scholarships**
More than 8600 students have benefited from our Marshall Scholarship Program in the last 25 years. Annual and endowed scholarships are vital to the hopes and dreams of our students – helping them to pursue a USC education regardless of their financial situation. To ensure that we continue to attract and retain the most promising and talented students, we must dramatically increase the number of available scholarships. Please consider joining us in this important effort!
